

WELCOME!

The Let's Play Money printable packet is designed to inspire kids' interest in financial literacy, build money knowledge and habits, and serve as a tool to spark conversations about financial topics.

Each grade-level packet is full of skill-building games, puzzles, and other interactive activities based on financial literacy standards set forth by the National Financial Educators Council, the Washington State Financial Literacy Standards, and the National Content Standards for Entrepreneurship Education.

Learning about money fosters literacy (financial literacy is tied directly to strong reading literacy), numeracy (working with numbers), and sound practices (forming good habits, planning, and strategizing). To that end, each packet offers integrated opportunities to build reading and math skills while developing financial competencies.

According to the National Financial Educators Council, kids' financial habits are set by ages 7-9. It's never too soon to talk to kids about money, and the Let's Play Money packets are here to help you start those conversations with your kids. Now is the time!

Congratulations on taking this important step!

THANK YOU FOR YOUR ORDER!

This is the October **Let's Play Money printable packet for 6th graders.**

GET STARTED

- Set up a regular schedule for Let's Play Money to build regular engagement.
- Print the Let's Play Money pages.
- Share the entire packet or offer individual pages for your kid to complete.
- Build opportunities to engage in real-life, money-oriented activities and conversations during the month.
- Go over your kid's work with them and check the answer key at the end of the packet.

LET'S PLAY MONEY

NEWS

HALLOWEEN: SPENDING TRENDS

Halloween, also known as All Hallowe'en or All Hallows' Eve, is celebrated on October 31 each year. In the long ago past, Halloween wasn't fun at all, but times have changed. Today, it is a fun holiday that people are willing to spend a lot of money on. People dress up in costumes, carve pumpkins, and kids go door-to-door saying "Trick-or-treat!" to collect candy.

In the United States, Halloween spending was over 12 billion dollars in 2023. This was the highest spending ever! Many people plan ahead for Halloween. About 25% of shoppers buy their costumes two to three weeks early. Less than 10% wait until the last minute. Costumes are the biggest expense. For this year, people may spend over 4 billion dollars on Halloween, with the main expense being costumes for adults, kids, and even pets.

TOP 10 HALLOWEEN CANDIES

The most popular Halloween candies are Reese's Peanut Butter Cups, which are a chocolate and peanut butter treat. M&M's are the second most popular candy. The third most popular candy is cinnamon-flavored Hot Tamales. Candy corn also makes the list, along with several other popular candies. Check out the top ten list at the right! Which one is your favorite?

HISTORY: HALLOWEEN CANDY

For many American kids, Halloween wouldn't be the same without trick-or-treating. You may be surprised to learn that in the 1930s and 1940s, kids used to get homemade cookies, cake, fruit, nuts, coins, and toys instead of candy. Candy became popular in the 1950s when candy companies began promoting their treats for Halloween. Wrapped candy was also considered more safe to receive from strangers. By the 1970s, kids were only receiving factory-made candy when they went out trick-or-treating.

Some of today's favorite Halloween candies have been around for a long time. Hershey's Milk Chocolate bar was first made in 1900, and Hershey's Kisses started in 1907. Milton Hershey made chocolate affordable for everyone and even built a town, Hershey, Pennsylvania, around his factory. In 1917, Harry Reese, who worked at the Hershey factory, started making his own candies, including the famous Reese's Peanut Butter Cups. In 1963, Hershey's bought Reese's Candy Company.

FUN PAGE

Look at the pictures and write the words in the correct box.

foggy

chocolate

cauldron

potion

jack-o'-lantern

ghoul

lantern

tombstone

witch

moonlight

leaves

October

COLOR

Design each jack-o-lantern to match the word below it.

Happy

Sad

Crazy

Scared

Sleepy

LIFE ACTIVITY

Cut The (Costume) Cost

The largest household expense for Halloween is costumes.

Instead of buying a ready-made costume, get creative with crafty supplies and materials you have at home or can purchase at a craft or thrift store.

My Costume Idea

Supplies Needed

Use the chart below to write down the items you need for your costume.

(Example) Item: Pirate sword cardboard Cost \$0

Item	Cost
How low can you get your TOTAL cost? →	

LIFE ACTIVITY

Think Ahead

**The choices you make today affect what happens in the future.
Write your answers below.**

Think about how fashion trends, peer pressure, or waiting until the last minute might change how you spend money for Halloween. How do you think these things could affect your spending choices?

Planning ahead and setting financial goals helps you make smart choices with your money. What's something you want to save for? How does that help you decide how much to spend on a holiday like Halloween?

MONEY MATH

Calculate the Total

Calculate the final price after the discount is applied and tax is added.

\$30 rain boots
are \$5 off.

The rain boots have
a sales tax of 7.5%.

\$25 sweatshirt is on
sale for 30% off.

The sweatshirt has
a sales tax of 8%.

CASH CORNER

Color and cut the cash.
Use the cash on the next page for a pretend Pop-up Stand.

Quarters = 25 cents each

Nickels = 5 cents each

Dimes = 10 cents each

POP-UP FARM STAND

Start a Pop-up Farm Stand. Color and cut out the items on this page and sell the items in your stand. Decide how much each item costs. Make more products by printing extra pages or designing your own. Give some money to your customer to spend. (Use the cash on the previous page.) Keep some money in an envelope or cash register to give back change.

APPLE CIDER STAND

BUSINESS STORY

Excerpt from "Cat Casey Turns Brownies Into A Business"

I was home on Saturday working on a puzzle with my brother when the phone rang.

"Hello," I answered. "Is this Cat?" asked a woman's voice.

"Yes, this is Cat," I said.

"This is Mrs. Smith. I bought those delicious 'twinkle bars' at the bake sale last week."

I laughed to myself when she called them 'twinkle bars.' "Yes, I remember. Hello, Mrs. Smith."

"Say, listen, Cat, I shared the bars with Mr. Adams at The Blue Moon Café and he just loved them. He would like to order a batch of bars from you for the Halloween Spooktacular event on October 31st."

I was stunned and really didn't know what to say. "Well, sure, I guess I can make another batch of bars," I said.

"Wonderful!" exclaimed Mrs. Smith. "They would like to order five hundred bars." I caught my breath.

"That's a lot of bars," I managed to say.

"Yes, it is," she said, "but they are willing to pay you 50 cents per brownie. It might be a nice little business for you."

A business? I'd always loved the businesses on Main Street with their stores: Mr. & Mrs. Patch with their General Store, Mr. Adams and his son at The Blue Moon Café, and the Hanson sister's hair salon. But I had never had a good idea for my own business, until now.

BUSINESS STORY

Business Plan

A business plan is a simple guide for how a business will work and make money. It explains what the business will sell, who will buy it, and how it will make a profit. It also includes the business's goals and how it will achieve them.

Excerpt from "Cat Casey Turns Brownies Into A Business"

I told my family about my new baking business that night. My grandparents were over for Saturday dinner. After we were done playing games, my grandpa suggested I write down a business plan.

We took out a sheet of paper and I made a list of things I needed to start my own business.

"First," I said, "I need to make a list of all the ingredients I will need. My recipe only makes 12 brownies."

Since the order was for 500 brownies, I would need to figure out how many batches to make. I divided 500 bars by 12.

Divide 500 by 12 to find out how many batches of brownies Cat needs to make. Then round up to the nearest whole number.

Then I wrote out a basic business plan for the Cat's Twinkle Bar business. I called them "Twinkle Bars" just like Mrs. Smith, because that made them sound special.

EARN MONEY

Cost Of Goods Sold

The cost of goods sold (COGS) is how much money a business spends to make or buy the products it sells. It includes things like materials and the work to put the products together.

Excerpt from "Cat Casey Turns Brownies Into A Business"

"Have you figured out the cost of your ingredients yet?" my mom asked.

"That's one of the first principles of business, knowing your 'cost of goods sold'," he said.

"Cost of goods sold?" I asked.

"Yes," my dad said. "Every product that gets sold has a cost to it."

So that is where I started- figuring out my "cost of goods sold".

I went to the grocery store with my mom and brother on Saturday and wrote down the cost of each ingredient. Then I spent the afternoon making a chart to show the breakdown of my costs.

For example, a dozen eggs cost \$1.80.

Help Cat find out how much each egg cost. Divide \$1.80 by 12 eggs.

Cat knows she needs 252 eggs to make all the brownies. Multiply 252 times the cost of an egg to find out how much the cost of the eggs.

Cat continues to find the cost for each ingredient so she knows how much her "Cost of Goods Sold" are for the brownies. Buy the book and read the full story to learn more!

GAME TIME

Find out the missing numbers and figure out what the pattern rule is for each box.

13, 16, 19, 22, 25, __, __, __

INSTRUCTIONAL INFORMATION & ANSWER PAGE

3-4 Money News - Kids learn about money through stories. Let kids read the **Let's Play Money** newsletter and ask open-ended questions such as: What do you think about that? How does this impact you or our family? What action steps or changes do you think could be made?

6 Kids design jack-o'-lantern faces to match the words written below each pumpkin.

7 Kids write down or draw a picture of their choice of Halloween costume. Then use the chart to write down each item and the cost of each item for the costume. Optional: they can find ways to borrow a costume or part of a costume, use materials at home to make all or part of the costume, and purchase items needed from a craft or thrift store, to keep the cost low.

8 Kids write down their responses to the questions. Grown-ups can use this opportunity for discussion.

9 Final price \$26.88, \$18.90

10 Kids color and cut the cash to use on page 11.

11 Kids color and cut out items for a pretend pop-up farm stand. They give the play cash from page 10 to friends or family members to buy items. They keep some cash to use as change.

12 Kids read the business story independently or with an adult.

13 41.67, 42

14 .15 per egg, cost \$37.80 for the eggs

15
